STATIC TEXT

Good morning/afternoon. My name is [YOUR NAME] and I am from %inst%.

We are doing a study on mungbean production. We are particularly interested in the effect of improved varieties and agricultural practices on costs and returns in mungbean production as well as the effect of mechanization in mungbean production. Because both men and women are usually involved in mungbean production, and the effect of mechanization may be different for each person, we would like to ask some questions to you as well as to your spouse. Apart from mungbean-related questions, we will ask some general questions about you, your farm, and your household to understand the context of your farm operation.

This interview will use a list of standard questions and will take about 1 hour to complete. Your responses will help us to understand better how mungbean is produced in the country and the problems farmers face.

I would like to emphasize that this interview is for research only and your answers will always be kept strictly confidential and never be revealed to any other people. I would like you to answer the questions truthfully, in your best possible way, and to the best of your knowledge. If you don't know the answer to some of the questions, simply tell me. You can tell me at any time if you'd like a break or if you would like to discontinue the interview.

What is the name of the primary respondent?	TEXT	A9a
What is the name of the secondary respondent?	TEXT	A9d
I The secondary respondent is the woman most involved in mungbean production. If the primary respondent is a woman, there is no secondary respondent.		

<p>You did not enter a name for the secondary respondent. Is there no secondary respondent? READ ONLY IF SECONDARY RESPONDENT WAS NOT PRESENT IN BEGINNING

If possible, try that no man can overhear the interview.

Good morning/afternoon. My name is [YOUR NAME] and I am from %inst%.

We are doing a study on mungbean production. We are particularly interested in the effect of improved varieties and agricultural practices on costs and returns in mungbean production as well as the effect of mechanization in mungbean production. Because both men and women are usually involved in mungbean production, and the effect of mechanization may be different for each person, we would like to ask some questions to you as well as to your spouse. Apart from mungbean-related questions, we will ask some general questions about you, your farm, and your household to understand the context of your farm operation.

This interview will use a list of standard questions and will take about 1 hour to complete. Your responses will help us to understand better how mungbean is produced in the country and the problems farmers face.

I would like to emphasize that this interview is for research only and your answers will always be kept strictly confidential and never be revealed to any other people. I would like you to answer the questions truthfully, in your best possible way, and to the best of your knowledge. If you don't know the answer to some of the questions, simply tell me. You can tell me at any time if you 'd like a break or if you would like to discontinue the interview.

APPENDIX A — VALIDATION CONDITIONS AND MESSAGES

[1] B1b: Which relationship does %rostartitle% have to the household head?

Validation Condition:

```
/*-----  
Validation to make sure only one person is  
reported to be the household head  
-----*/  
Blb==1? /// Is this person the household head?  
/// If household head, check that there has  
/// not been another household head reported  
(Bl.Count(x=>x.Blb==1)==1)  
/// If not a household head, then no error  
:true
```

Validation Message: There must be only one person in the household designated as head.

Validation Condition:

```
/* Check that head has different gender than spouse(s) */  
  
// if head is current person, and does at least one spouse exist?  
Blb==1 && Bl.Any(x=>x.Blb==2) ?  
  
// if so, check that there is no spouse with a gender different than that of the head  
!( Bl.Any(a=>a.Blb==2 && a.Bla!=null && a.Bla==Bla) ) :  
  
// if not, no problem  
true
```

Validation Message: The head and his/her spouse typically have different genders. Please confirm.

Validation Condition:

```
/* Check that spouse has different gender than head */  
  
// if head is current person, and does at least one spouse exist?  
Blb==2 && Bl.Any(x=>x.Blb==1) ?  
  
// if so, check whether spouse has different gender than head  
!( Bl.Any(b=>b.Blb==1 && b.Bla!=null && b.Bla==Bla) ) :  
  
// if not, no problem  
true
```

Validation Message: Spouse typically has a different genders than his/her spouse (the head of household). Please confirm.

Validation Condition:

```
/*Check that there are at most 2 parent*/  
  
// if current person is father/mother?  
Blb==6?  
  
//Check that there are no more than 2  
(Bl.Count(x=>x.Blb==6) <=2)  
  
//if not, no problem  
:true
```

Validation Message: Household head has more than 2 parents, according to your entry. Please double check.

Validation Condition:

```
/* Checks if no household head was listed.  
Note: this runs at the end so it does not trigger errors constantly */  
  
// Check that all information has been filled  
Bl.All(x=>x.Blb!=null) ?  
// If all information has been filled out, check for a head was listed  
!(Bl.Count(x=>x.Blb==1)==0) :  
true
```

Validation Message: No household member was identified as the household head. Please confirm.
